

MARINE ELECTRIC RADIATORS

RAEL RANGE

The RAEI range of electric radiators, Bureau Veritas certified, are specially designed for marine applications.

Supplied in 24V DC, 230V or 400V AC single phase, they can be equipped with an adjustable thermostat.

Bureau Veritas certificate of type approval n° 02153 BV

STANDARD RANGE

DESCRIPTION	ITEM CODE	SUPPLY VOLTAGE	POWER (W)	THERMOSTAT	TYPE OF CASE	WEIGHT
24 VDC RANGE

RAEL – MAIN TECHNICAL SPECIFICATION

INPUT

- 24 VDC +/- 15%
- 230 VAC +/- 15% single-phase
- 400 VAC +/- 15% single-phase
- Frequency for the AC models: 47 to 63 Hz

POWER

- From 500W to 2000W

CONTROL

- ON/OFF bipolar switch on the left hand side
- Models with thermostat: adjustment knob on the left hand side

PROTECTION

- In compliance with maritime rules
- Inaccessibility to live components
- Waterproof and stainless heating resistors
- Connection of cables through cable glands

PRESENTATION

- 2 mm steel sheet metal manufacturing
- Shielded heating resistor
- Excellent resistance to shock, vibration and marine environment.
- Protective undercoat
- Paint: Black frame RAL9011 and white front side RAL9001
- Stainless steel screws
- Discretion: its rounded shape allows an easy integration in modern ships

STANDARDS

- Bureau Veritas certified N° 02153
